

TRAINING SEMINAR

Elevate Your Craft: Hands-On Training in **Embroidery**

Take your skills to the next level in this intensive two-day training focused on today's most in-demand apparel decoration techniques.

Day 1 focuses on practical embroidery techniques that improve quality and efficiency. Learn when and why to use specialty backings, how to choose the right thread for fine detail and specialty applications, and how to create professional patches with clean borders and adhesive backing. The day concludes with an open Q&A for real-world production questions.

Day 2 highlights ZSK equipment, software, and advanced digitizing. Explore the new T8-3 monitor and features, learn how BASEPAC improves multi-head workflows, master digitizing for high-quality 3D foam designs, and get hands-on guidance from certified ZSK technicians. Wrap up with an open Q&A session.

Designed for decorators at any stage, this hands-on training helps you work faster, improve quality, and increase profitability with techniques you can use right away.

Hosted at our modern showroom in Arlington, Texas, conveniently located in the Dallas, Fort Worth metroplex.
